Profile

CISSP-certified cybersecurity and IT infrastructure professional and ISO/IEC 27001 Lead Implementer with long-standing experience in security governance, vulnerability management, and hybrid cloud operations for multinational organizations in Germany and South Korea. Most recently secured IT operations for Samsung Electronics entities across Europe at Samsung SDS Germany, embedding ISO 27001 and GDPR requirements into cloud and hosting operations. Structured, reliable, and experienced in aligning security controls with business requirements together with global teams.

Professional Experience

01/2024 – 02/2026

Senior System Administrator (Local Hosting Manager)
Samsung SDS Germany GmbH – SCP Group | Eschborn, Germany

- Led the secure transition from on-premises infrastructure to Samsung Cloud Platform (SCP), embedding ISO 27001 and GDPR compliance into all operational layers
- Ensured compliance with NIRP security requirements by leading vulnerability remediation and security control implementation before go-live for Samsung Electronics Germany, France, Poland, and SEHP
- Managed vulnerability management, system hardening, and access control for internal and European client systems on SCP and on-premises (Windows/Linux on VMware)
- Provided secure web hosting and cloud services (SCP) to Samsung Electronics subsidiaries in Germany, France, Poland, and Hungary
- Supported internal audits, compliance validation, and incident response coordination under GDPR

10/2019 – 11/2023

Senior IT Consultant
DIVA Korea | Busan, South Korea

- Delivered end-to-end consulting for SMEs and startups migrating from on-premises to public (AWS) or hybrid cloud environments
- Designed and implemented private/public cloud systems, improving scalability and data protection
- Architected secure network and VPN infrastructure with firewalls, encryption, and load balancing; provided post-deployment support for incident management and monitoring automation

04/2010 – 09/2019

Corporate IT Manager
National Oilwell Varco (NOV) | Busan, South Korea

- Implemented and supported enterprise security systems with global IT Security & Network teams: Firewall (Check Point), DLP & Proxy (Blue Coat, Zscaler), SIEM (Splunk, Security Onion), Endpoint Protection (FireEye, Carbon Black), IAM/PAM (BeyondTrust, Thycotic)
- Supported the deployment of Multi-Factor Authentication (MFA) and Zscaler Private Access with the Global IT Security team
- Consolidated and migrated local data centers to the LG CNS Busan Data Center with the global infrastructure team
- Maintained Microsoft infrastructure, Microsoft 365, global MPLS (CenturyLink), and SD-WAN (Versa), improving service reliability and compliance across regional offices

Core Competencies

Security Operations	Vulnerability management, system hardening, incident response, access control
Governance & Compliance	ISO/IEC 27001, GDPR, audit readiness, risk management
Security Technologies	Check Point, Zscaler, Blue Coat, Splunk, FireEye, Carbon Black, BeyondTrust, Thycotic, MFA
Cloud & Infrastructure	Samsung Cloud Platform (SCP), AWS, VMware, Windows Server, Linux
Networking	Firewalls, VPN, MPLS, SD-WAN, load balancing
Collaboration	Multi-site operations, cross-functional and global teams

Certifications

2026	Certified Information Systems Security Professional (CISSP), ISC2
2026	PECB Certified ISO/IEC 27001 Lead Implementer
2023	AWS Certified Solutions Architect – Associate
2017	National Information Security Certificate (KISA)
2015	Red Hat Certified System Administrator (RHCSA) – Linux 7
2014	ITIL Foundation Certificate
2013	VMware Certified Professional (VCP5-DCV)

Education

MBA	Pusan National University, South Korea
B.Sc.	Material Science Engineering – University of Ulsan, South Korea

Languages

Korean	Native
English	Fluent (business, written and spoken)
German	Basic (A1) – currently studying

Bad Soden am Taunus, 13 October 2026
